

These are the homework activities for Class 6 and 7 to complete this term based on our topic 'POTIONS'. Please choose at least 3 to complete and return to school by Monday 3rd April. If you wish to complete more than 3 tasks then that is great. The ORACY presentation would be most helpful if completed! Thanks for your support. Mrs Elphick and Mr Lloyd.

### Poster Competition

Make a poster about the dangers of household substances. **With an adult**, check out what harmful substances are under the sink at home!

### Oracy Presentation

Explore mixing, dissolving, and the effect of heat on a range of ingredients used in cookery. Present findings as a short presentation to the class in a form of your choice. For example, a powerpoint presentation.

### Character Fact File

Complete research and then write a fact file on a famous inventor, scientist or magician.

# Potions

### Measurement – Cake making

List the ingredients and measurements of your favourite cake mixture. Use instructional writing to explain how you made it and try to take a photo of the final cake if you make it.

### Luxury Liquids

Visit a shop or look online for some luxury items such as perfumes, after shaves or body lotions. List some of the 'magical' ingredients that are included to make our hair and skin look so beautiful!

**Try:** Bodyshop, Jo Malone or Liz Earle products maybe.

### Easter Task:

Yr 4/5/6 - Decorate an egg competition.
